April, 20 2019**

Attendance:

- Chris Bolton
- Bill Boettner
- Charles Naumann
- Sean Perejda
- Mike Goldston
- John Lennon
- Franklin Atkins
- Lindy Atkins
- Le Pitts

Discussions:

Summer Library show

Library show is on, setup May 31, show one day only June 1. Show will be somewhat scaled back from usual so we have taken the opportunity to give the show a theme. Theme 1: for the 200th anniversary of the state of Alabama, and theme 2: for the 50th anniversary of the moon landing.

Chris has suggested LEM mocs, do your own thing, any size, any style, and I added moonbase and moon rovers.

Brick Universe Chattanooga - setup May 17, show May 18-19. Everybody seems to really enjoy Brick Universe and now there is one really close. Willie is coordinating, you have probably already seen his email.

Next AFOL day Aug 3. The Nashville store really pulled out all the stops for the last AFOL day, Bill strongly recommends going next time, maybe we can carpool. We get in an hour before the store opens, and this time they had a well stocked wall and 10-15 extra boxes set out on the counter. New manager is great.

Officers

Look for an email from Chris. We are going to vote for officers via email to give everybody a voice.

Cooke's Museum of Natural Science opening soon.

Public window for preorder of BrickLink Ideas.

Next meeting 5/16 Thur. 6-8 hopefully in the Foundation room at the library.

Interesting goings on: BrickLink "Ideas" finalists chosen. Max 2500 each set, some already sold out, second round window to preorder coming up soon

Cooke's Museum of Natural Science in Decatur growing

Mike showed us a WIP microscale Notre Dame and Franklin is making good progress on his Transformers MOCs
