

TNVLC Nashville Chapter

Meeting 2019.05.11

In attendance:

Rafe Donahue, Brian Sauls, Faustino Ciapati, Jenni Joy, John Joy, Edward Sampson, Stosh Morency, David McClatchey, Doug Johnson, Willie Neblitt, Jason Neal, and others.

Mtg opened at 1:58p at the Nashville Library.

Discussion of purchase opportunities of the collectable minifigs. Check out things at minifiugresplus.com.

New applications were processed; some new members are expected a little late.

Store display: our LUG has opportunity to display at the local Lego store. Stosh volunteered to be point person around displaying there --- contact him if you want to display there. Avoid intellectual property that Lego does not contract.

Excitement surrounded the upcoming Trolls licensing, hoping for fun pieces in fun colors now that Elves is gone.

Doug was awarded the Best in Show from Brick Universe Knoxville 2018. We still don't know who won Best Historical at that show --- we have the award and don't know to whom to give it. We will pawn it off on Marty at the Chattanooga show to make it his problem.

Doug showed his new gothic church. It is looking very nice --- impressive roof joists and stained glass, a bell that swings, and lights inside.

Edward showed a new car based on the Thunderhawk from M.A.S.K.

Faustino showed Borg Cube --- it makes noise and lights up. Also a portal from Star Trek. Oh, and a Batmobile "Batrod". And a Jeep! And the Family Truckster and Christy Brinkley Ferrari from National Lampoon's Vacation movie. And while he was presented, he played the appropriate music on the Borg Cube. 'Twas a very slick presentation! Oh, and a taxi from The Fifth Element. I'm exhausted; too many cool builds!

Jason Deal is a new member! Welcome!

Mtg adjourned at 4:02p.
