On January 1st, 2021, after a very long and difficult 2020, several club members answered Marty's call to start the new year doing something we love - building.

Everybody relaxed and caught up with each other as they built their Christmas gifts and January 1st releases. Several different sets were built during this time, including 75318, The Child, 75299, Trouble on Tatooine, 70620 Ninjago City, and many others.

Members also discussed their lack of luck finding the normal, holiday-end clearance sales that normally occur, with a few exceptions that individuals shared, Also discussed were club-wide contest topics, such as building Brickheads, Friends-a-fying a set and building new sets in a vintage style.

Overall, it was nice catching up in a non-business setting, without a set agenda, and just being able to chat with the other members.
