### **Socially-Distanced Parking Lot Gathering**

After making purchases, club members gathered around Brian Sauls's Jeep where he handed out prizes to previous contest winners. David McClatchey brought two totes of small, vintage, NISB sets to show and tell and sell. They were appropriately "ooh'd" and "ahh'd" over. Of course, everybody showed off their new purchases.

Among the other topics discussed were the upcoming Huntsville Might Mega Mecha Parts Draft in March, Nasvhiile's Time-Warp build challenge, and the club-wide Habitat contest.

Discussions were also had about the collaborative train layouts, LEGO skyscrapers, LUGbulk, and when we might be able to gather for another event.
